

What Makes Us The Best Value?

Custom Suite Design & Construction

We Believe That A Company's Image Is A Direct Reflection Of The Quality Of Companies They Choose To Do Business With.

- Our past and present tenants include: 3M, Caribou Coffee, Estee Lauder, Bridgman's, Kevin Garnett & Troy Hudson of the Timberwolves, Motorola, Federal and Local Government Offices, EF Johnson (inventor of the CB Radio), and Original Mattress Factory.

Buildings Maintained To A Very High Standard

We Offer Custom Suite Design & Construction.

- We build out the space to the tenant's needs and specifications. We have a space planner that works with the tenant to design the space. Then our 15 man construction crew builds out the space as designed by the space planner and the tenant.

Continually Update & Upgrade Our Buildings

We Maintain Our Buildings To A Very High Standard.

- We have a Maintenance Team that performs preventative and general maintenance each week. If something breaks, it's fixed immediately. We offer on call emergency maintenance 24 hours a day, 7 days a week, 365 days a year!
- We continually update and upgrade our building interior and exterior common areas. We realize how important it is to have clean, attractive state of the art buildings. We are currently adding wireless internet access to our buildings.

Building Maintenance Performed Weekly

- We ensure that our properties perform to the highest efficiency potential (auxiliary heating and energy efficient ballasts, etc.), to keep your costs low, your space comfortable, and to high environmental standards.
